Helping you improve ICT skills!

More Choice!

The latest curriculum review recommends that computer skills should be given the same importance as reading, writing and arithmetic, and children should be taught to use podcasts and PowerPoint presentations in primary school. Through collecting your Tesco for Schools & Clubs vouchers this year, you will be able to choose from over 250 ICT resources to help you achieve this goal.

Computers	12-16
Printers	17-18
Accessories	19-22
Audio Visual	23-25
Digital Cameras	26-27
Digital Imaging	28
Office Equipment	29
Cross-Curricular Software	30-38
Control & Data Logging	39-49
Interactive ICT	50-52

Intelli Panel

Energy saving, intelligent power strip with telephone, modem and broadband surge protection!

The Intelligent 8 Way Mains Panel is a power strip which automatically switches off the power to your desktop computer, peripherals and other connected devices. It features eight mains sockets, one of which is a 'Master Socket.' Your desktop computer plugs into the master socket and controls the power to the peripherals connected to the other sockets. When you switch your computer on or off, power to the peripherals is automatically switched too.

Designed for use with desktop PCs, Macs and their peripherals, e.g. printers, scanners, speakers, etc.

Can also be used with Hi-Fi and AV equipment

- Built-in surge protection - 532 kilojoules of power dissipation including thermal fuse in case of a catastrophic spike.
- Telephone/modem/broadband surge protection - high quality varistors grounded to earth give the best possible protection against surge.
- Lowest standby power of 0.4 of a watt, saving an average 35 watts per hour depending on the number of connected peripherals; this product can pay for itself in less than a year of use
- Maximum power: 13A
- Built-in 2m power cable
- Supplied with 2m telephone cable
- Can be wall or desk mounted

1J2-631 **Vouchers 980**

SpexWorld! House

Aspex

SpexWorld! House: sharpens graphical modelling skills as you plan and design the rooms in a house. Design and furnish single or multiple room shapes or design a whole floor plan: kitchen, bathroom, bedroom and lounge. Set room sizes and budget to spend and display furniture and fittings on a simple spreadsheet. You can even take a virtual walk around the design to see how it looks!

1J2-965	**Single User**	**Vouchers 1,820**
1J2-964	**10 User**	**Vouchers 4,450**

SpexWorld! Lunar

Aspex

SpexWorld! Lunar: visit the moon! Design a lunar base complete with lunar pod buildings, lunar vehicles and the famous eagle lander from the 1969 moon landing. You can walk around inside your lunar base, see what planet earth looks like from the moon. Use SpexWorld! Lunar as the hub of a space or astronomy project.

1J2-967	**Single User**	**Vouchers 1,820**
1J2-966	**10 User**	**Vouchers 4,450**

SpexWorld! Tutenkhamun

Aspex

SpexWorld! Tutankhamun: a refreshing way for pupils to study customs and life in ancient Egypt. Learn about ancient Egypt as you equip Tutankhamun's tomb with everything a king needs in the afterlife: makeup boxes, bed, chariot and boats, also mummies, Anubis, canopic chest, funeral chamber, masks, etc. The tomb items are based on actual artefacts found in Tutankhamun's tomb. Immerse yourself in the world of the tomb builder, walk around inside the tomb and see the treasures close up. Microsoft Windows XP or later, Mac OS X.

1J2-975	**Single User**	**Vouchers 1,820**
1J2-974	**10 User**	**Vouchers 4,450**

SpexWorld! School

Aspex

SpexWorld! School: enables you to design and furnish the rooms in a school, classrooms, IT room, gymnasium, changing rooms, corridors etc. SpexWorld! School has a budget facility and a simple spreadsheet to help pupils learn about budgeting, handling and managing money, 2D and 3D bar graphs, line graph and a pie chart which display the items and costs.

1J2-971	**Single User**	**Vouchers 1,820**
1J2-970	**10 User**	**Vouchers 4,450**

SpexWorld! Playground

Aspex

SpexWorld! Playground: design the play area of your dreams! Expense is no object – or alternatively, you can work to a budget as budgeting and a spreadsheet are included. Plan the play area with bright colourful climbing towers, tunnels, toys, climbing frame, monkey ladders, slides, roundabout, see saw, bouncy castle, café and toilets. All in 3D so children can 'walk around' their play area and see it up close for themselves. Great fun!

1J2-969	**Single User**	**Vouchers 1,820**
1J2-968	**10 User**	**Vouchers 4,450**

TESCO IRELAND for Schools & Clubs FREE

SpexWorld! Town

Aspex

SpexWorld! Town: contains all you need to design a street or a whole town. Planning is done in 2D or 3D to help children grasp what maps are all about. Includes houses, shops, trees, roads, vehicles, garden items like fences and flowerbeds, town hall, cars, people and lots more. With a mouse-click, go inside your town and walk around. Really brings a geography project about towns and cities to life!

Easiteach Games Content Pack

RM

The Easiteach Games Content Pack contains 14 fun and educational games for primary and secondary pupils. Students can test their general knowledge or practise their word, number and logic skills. Use the games as rewards, during wet playtimes or as mental starters. Or why not use some of the games to brighten up revision, by creating your own content, which you can save and re-use to fit your curriculum topics? Pupils, too, will enjoy the challenge of creating game questions as well as answering them.

Microsoft Windows XP or later.

1J2-784 Site Licence **Vouchers 5,900**

Easiteach Science Content Pack

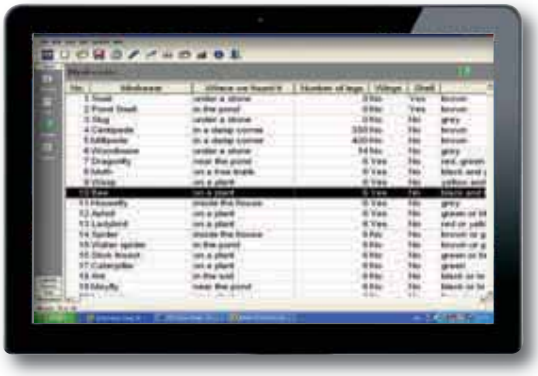
RM

Science resources focusing on curriculum aspects that are a challenge to teach or visualise, including:

- Over 40 whole class activities
- 40 investigations
- 18 simulations
- 60 concept cartoons
- 12 video clips

Microsoft Windows XP or later.

1J2-795 Site Licence **Vouchers 9,000**



RM Information Magic

RM

RM Information Magic is an easy to use database tool, specifically designed for primary pupils to create surveys and develop their skills in information handling.

RM Information Magic:

Features an outlook-style toolbar and video navigation controls for easy searching, sorting and orientation through records.

Makes creating graphs simple and allows pupils to insert pictures to illustrate their data files.

Allows 'and/or' searches.

Includes four colour-coded levels, providing a progressive environment in which pupils move from the simplest 'surveys for infants' to a whole range of more complex surveys and data analysis.

Enables pupils to search, sort and graph the data they enter, helping to develop information handling skills.

Includes ready-made data files, meaning you do not have to spend valuable time designing and entering your own data files.

Accepts 'plug in' data surveys that can be downloaded from RM Window Box OnLine, allowing your school to take part in nationwide data collection projects.

Microsoft Windows 95 or later, not Microsoft Vista compatible.

1J2-943 **Single User** **Vouchers 1,680**

1J2-942 **5 User** **Vouchers 4,500**

Crystal ICT Online

Sherston

An outstanding online service designed to provide a comprehensive solution for primary ICT. Full of high quality adventure content, engaging activities and flexible resources, it gives teachers and pupils 24/7 access both from school and home. All content is curriculum-mapped and covers key areas of ICT learning – control, simulation, developing multimedia ideas, monitoring, logo, e-safety and spreadsheets. Comes with 100 page classroom guide, full of lesson ideas, worksheets and curriculum guidance.

One year online subscription starting September 2009 requires a broadband connection and one of the following internet browsers: Internet Explorer 6.0 & above, Firefox 2.0 and above, Safari 2 and above.

1J2-769 **One Year Subscription** **Vouchers 9,260**

Professor Roberts' Multimedia Lab

Sherston

An exciting product from the famous brain-busting scientist, Professor Roberts' Multimedia Lab can be used to create interactive multimedia presentations, paper based publications, drag and drop games and traditional slideshows. Children will learn how to add images, text and sound, and to use navigation buttons to hyperlink between pages. The program is supported by step-by-step workbook tutorials and a bank of templates.

Microsoft Windows 2000 or later.

1J3-034 **Vouchers 7,410**

Broadband Detectives

Sherston

A safe and secure simulated environment in which pupils can learn about, consolidate and apply essential e-safety and Web 2.0 knowledge and skills. Broadband Detectives is packed with tutorials, interactive tasks and video summaries to help children understand applications such as wikis, blogs, webspace, webmail and podcasting. The ideal way to bring pupils up to speed with both the potential and the hazards of today's World Wide Web.

Microsoft Windows Version 98 or later.

1J2-725 **Single user** **Vouchers 2,230**

iClone 2

TAG Learning

Students can master 3D real time film making with iClone 2. Advanced actor creation, real-time visual effects, and complete film maker power tools allow students to create a complete cast of talking animated custom characters, clothing, 3D scenes and special effects for animated movies. iClone 2 demystifies the technology of creating full motion 3D avatars and video story-boarding.

Microsoft Windows 98 or later.

Honeycomb

Softease

Honeycomb is an integrated set of Web 2.0 creativity, social networking, collaboration and publishing tools delivered through a single framework in a safe and secure online environment. Honeycomb provides pupils with their own personal online space along with a media rich tool set including:

- text and graphics features and tools
- spell checker
- widgets, including a diary, presentation and movie creator, graphing tools

All of which allow pupils the same creative choice in an online environment as they would expect in desktop tools. Honeycomb enhances pupil creativity and encourages collaborative working by enabling users to choose between various Web 2.0 applications to create their own online projects. Pupils can choose from a range of publishing paradigms including:

- web pages • blogs • wikis

NEW

Podium

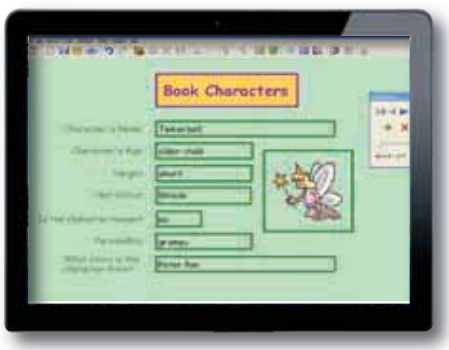
Softease

'Tell Your Story' with this major PC-based podcasting tool developed specifically for education. Podium allows students of any age to create, edit and publish podcasts all from the same simple interface. Suitable for any subject, students can create podcasts about anything at all! Podcasting allows pupils to display and extend their creativity using audio as a means of expressing themselves and can help to improve speaking and listening skills. Now with multi-track recording. Microsoft Windows XP or later.

1J2-932 Single User Vouchers 2,190

Textease Database CT

Softease



Now everyone in the class can enter data into networked computers and watch on screen as charts are dynamically updated before their very eyes. Data entry can be done swiftly, leaving lots more time for interrogation and charting. It's easy to create more than one graphical representation on the page to compare results in bar, line and pie charts.
Microsoft Windows 98SE or later.

1J2-992 Single User Vouchers 1,450
1J2-991 Additional User Vouchers 560

Textease Branch CT

Softease

Allows children to sort and classify information in a fun and imaginative way. By providing yes/no answers to questions they devise themselves, pupils can categorise and gradually build a tree. A recorded voice guides users through each stage of the process or you can record your own voice! Resizing, repositioning and customising a tree is easy to do.
Microsoft Windows 98 or later.

1J2-990 Single User Vouchers 1,450
1J2-989 Additional User Vouchers 560

Reactickles

TAG Learning

Reactickles provides an engaging, accessible computer environment for spontaneous imaginative play and learning, in which even the most anxious autistic individuals may relax and communicate. Started as an Internet based research project Reactive Colours aims to provide a software interface through which individuals with autistic spectrum differences and learning disabilities can be encouraged to use computers, and through which they can develop mouse, keyboard, programming and screen skills.
The creativity box resources are structured to provide an easy-to-use, flexible guide to integrating the software into the curriculum in a manner that is rewarding and fun.
Microsoft Windows 98 or later.

1J2-933 Site Licence Vouchers 3,340

Textease Movies CT

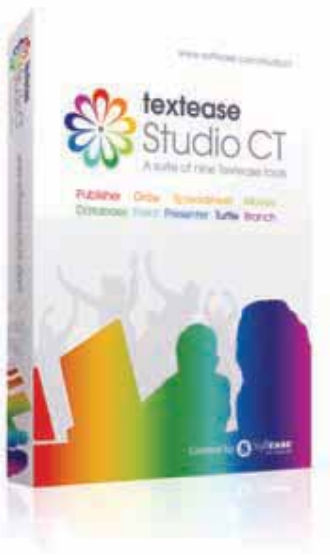
Softease

An easy to use movie making tool designed specifically for use in education. All the video editing and capturing elements can be seen in the same view, making it easy to add transitions, effects, sounds and titles without having to switch to a storyboard view. With an easy-to-use, colour-coded timeline, Textease Movies CT is ideal for children of any age.
Microsoft Windows 98SE or later.

1J2-994 Single User Vouchers 1,450
1J2-993 Additional User Vouchers 560

Textease Studio CT

Softease



Textease Studio CT is an integrated set of nine core software tools accessible through one easy-to-use interface. Manageable by dropping a new toolbar onto the interface as and when you want to use it, Textease Studio CT allows students of all ages and abilities to meet their own subject related objectives without having to master complex, adult focussed software.
Microsoft Windows 98SE or later.

Bee-Bot Busy Street Mat

A must have Bee-Bot resource. This mat provides a multitude of activities to suit a variety of learning objectives, e.g. ICT, literacy, numeracy and knowledge & understanding of the world. Complete with comprehensive support notes. Size 120cm x 45cm.

1JK-080 **Vouchers 860**

Bee-Bot Football Stadium Mat

Goal, Goal, Goal!!! Feel the excitement of match day, as up to six Bee-Bots (three-a-side) take to the field for a head-to-head encounter on this (90cm x 120cm) PVC mat. Complete with miniature plastic goals and plastic ball.

1JK-097 **Vouchers 1,670**

Bee-Bot Class Bundle Pack

- Six Bee-Bots
- Two rechargeable battery units (including eight batteries)
- Three additional AA rechargeable batteries (12 in total)

1JK-070 **Vouchers 11,900**

Bee-Bot Trailer

Why not send Bee-Bot shopping with this attractive trailer which simply hooks onto the back of your robot. This easy to use trailer is great for incorporating role play and retrieval exercises into your lessons. Although limited to 90 degree turns at a time, due to the Bee-Bot turning circle, the trailer still enables Bee-Bot to tow objects with ease.

1JK-099 **Vouchers 520**

Bee-Bot Starter Pack

Everything you need to hit the ground running with Bee-Bot. Pack includes:

- One Bee-Bot
- One rechargeable battery unit complete with four AA batteries
- Three activity mats; Treasure Island, Busy Street Mat and Transparent Grid
- One set of 49 sequence cards
- Ten white clip-on shells

1JK-075 **Vouchers 4,000**

Constructa-Bot

Bee-Bot has been transformed into this delightful, versatile digger (W12cm x L12cm). Using the same controls and movement capabilities as Bee-Bot, watch it push, scoop and transport resources from place to place. Whether used on a pretend building site, snakes and ladders mat, board game or moving through different locations there is great fun to be had! Children will learn how to move objects around from one postion to another using simple forwards, backwards and left/right controls. Additional features include:

- Built-in trailer for carrying items
- An ability to connect Lego pieces to the top to make unique designs and enhance children's construction adventures
- Built-in drywipe pen holder to trace Constructa-Bot's route.
- You can connect Kid K'Nex horizontally into the sides

Requires three AA batteries, not included

1JK-074	**Single**	**Vouchers 2,190**
1JK-083	**Pack of 6**	**Vouchers 12,140**

Bee-Bot Wooden Tunnels

Use these new tunnels to add a 3D challenge to your mats. Printed with colour dots up to the number nine on the sides and a matching number flag which slots neatly into the top of the tunnel, they are not only ideal for creating maths challenges but also a great addition to your Bee-Bot kit. Size: H10cm x W14cm x D16cm. One pack consists of nine tunnels.

1JF-371 **Vouchers 1,370**

Focus On Bee-Bot

As a result of demand, we are pleased to present you with this easy to use package created in partnership with Focus Educational Software, to support all your Bee-Bot explorations. View Bee-Bot on a series of eight cross curricular mats;

- Explore letters, CVCs, numbers, money and shapes
- Extend imaginary play to the computer via the Busy Street and Treasure Island backgrounds
- Motor through the Racing Circuit!

Using the arrow keys you can:

- Introduce basic programming.
- View through Bee-Bot's eyes
- View from an aerial/angled perspective
- Plan routes in advance and edit to make improvements

1JK-096	**Single User**	**Vouchers 1,120**
1JK-077	**Site License**	**Vouchers 3,340**

Bee-Bot Race Track Mat

Vroom Vroom! Race and skid around this Bee-Bot 'Grand Prix' mat whilst developing route and sequence planning. By using the support notes and photocopiable game cards provided you'll be sure to enjoy the thrill of the race. Great for time trials for group users. So have fun, wait for the lights to turn green and GO, GO, GO! Size 60cm x 60cm. Complete with support notes.

1JK-095 **Vouchers 600**

CVC Mat

Simple, clear and beautifully illustrated, this PVC mat is ideal for teaching CVCs. Each of the 48 images used on the mat has been tested on children for easy recognition. Make matching pairs, find the rhyme, medial, final or initial sound by directing Bee-Bot to the corresponding image. Size 120cm x 90cm.

1JK-085 **Vouchers 350**

Bee-Bot Road Safety Track and Safety Signs

We all need to know how to cross the road safely and which road signs we need to look out for. With the Bee-Bot road track and road signs children can practice taking their Bee-Bot around their tracks and learning the meaning of road signs which they may see when out and about. Create numerous scenarios with the 12 road pieces and five road signs. Links well with sequencing, route planning and counting. All track pieces marked into 15cm squares to use with Bee-Bot and the Road Signs 15cm x 15cm.

1JK-092 **Vouchers 930**

Giant Bee-Bot Sequence Cards

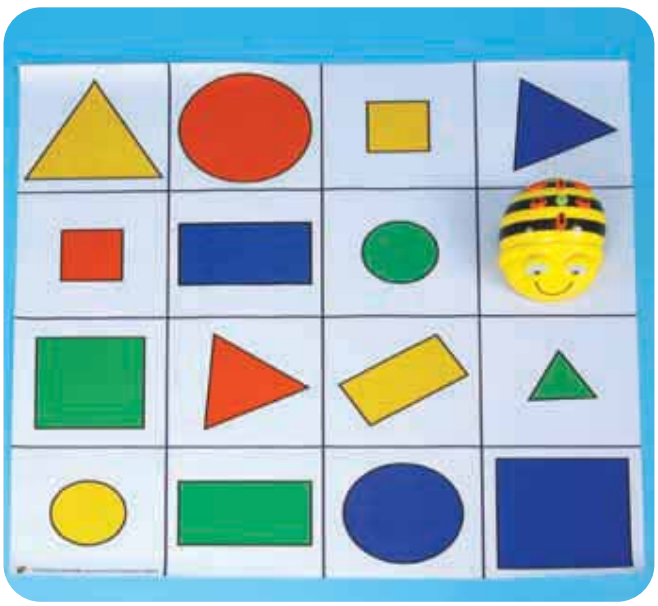
Help pupils to organise the route sequence! This pack of durable, laminated A5 sequence cards is ideal for assisting in program planning and recording. Contains 49 cards.

1JK-088 **Vouchers 500**

Bee-Bot Alphabet Mat

This Alphabet Mat is an excellent way to learn literacy and ICT skills through play. Brightly coloured upper and lower case letters. Children can explore the alphabet whilst playing a range of literacy games. Size 75cm x 90cm.

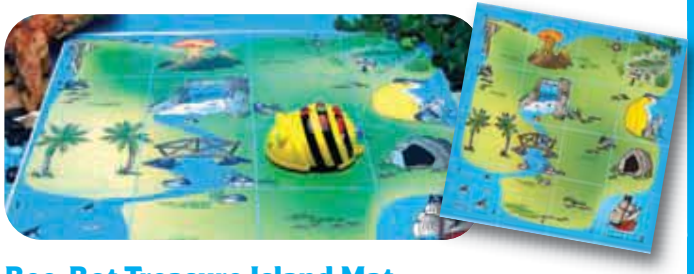
1JK-081 **Vouchers 1,000**



Bee-Bot Shapes, Size & Colour Mat

A fantastic resource for combining mathematics with ICT. Use this to help with shape, colour, size and position recognition. Size: 60cm x 60cm.

1JK-082 **Vouchers 630**



Bee-Bot Treasure Island Mat

Ahoy there! Explore the island and hunt for treasure. This mat is sure to inspire children's imaginations. An excellent resource for teaching control in the Foundation Stage and Key Stage 1. Directly covers unit 2D in the ICT QCA Scheme of Work. Complete with comprehensive support notes. Size 60cm x 60cm.

1JK-086 **Vouchers 650**

Bee-Bot Farmyard Mat

Down on the farm... Children will enjoy learning about life on this farm and acting out rural adventures with this colourful mat. Introduce children to different animals, crops and how they are grown, etc. A useful link between Science, Literacy and ICT. For Foundation and Key Stage 1. Size 75cm x 75cm.

1JK-090 **Vouchers 750**

NEW

Bee-Bot Jungle Jackets

Give Bee-Bot a new 'wild' look with our Wild Animal Bee-Bot jackets. Made from durable cardboard this is a low cost, quick and effective way to change how Bee-Bot looks and providing a whole host of opportunities to create new scenarios and adventures. Will require some cutting out.

1JF-375 **Vouchers 230**

Bee-Bot Transparent Grid with Co-ordinates

Create your own maps to use with Bee-Bot using this transparent grid with co-ordinates. A-E lettered along the bottom, and 1-5 along the side with a compass in the top corner. Size 50cm².

1JF-365 **Vouchers 580**

Focus On Bee-Bot Lesson Activities 2

NEW

Following the success of the first Focus on Bee-Bot Activites, TTS are pleased to bring you the brand new edition in partnership with Focus Educational Software. Not only does it include eight new mats but also a new facility to create your own mats by importing your own pictures and maps, a great way to create your own stories and scenarios.

New mats include:
Community Mat, Bee-Bot's Home, Katie Morag, Farmyard, Fairy, Seaside, UK, World

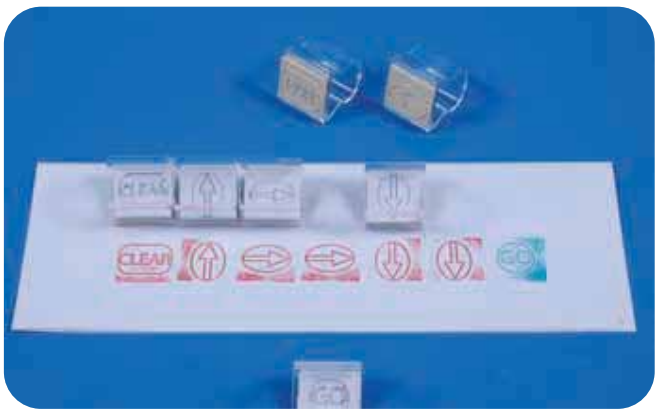
1JK-137 **Single User** **Vouchers 1,180**
1JK-138 **Site License** **Vouchers 3,510**

NEW

Bee-Bot Farm Yard Jackets

What is Bee-Bot getting up to down on the farm? Children can change Bee-Bot into a number of different farm animals and create their own rural adventures with these decorated jackets. Ideal to use with the Farm Yard Mat and Cards.

1JF-376 **Vouchers 230**



Bee-Bot Stamp Kit

All of the Bee-Bot buttons have been created into stamps so children can visually plan out their routes for the Bee-Bot.

1JF-369 **Vouchers 520**

Bee-Bot's Home

Adventures around the house, create different scenarios as Bee-Bot moves around the rooms in his home. 60cm x 60cm.

1JF-367 Vouchers 600

Bee-Bot Transparent Pocket Mat

Use this flexible pocketed mat to insert any of our pre made cards or create your own to retell a favourite story or support any cross curricular topic.

1JF-368 **Vouchers 440**

TESCO IRELAND for Schools & Clubs FREE

Simple Remote Controlled Vehicle

Children's first steps into control. A bright, cheerful car follows simple forward, backwards, left and right commands using the hand-held control pack. Ideal for ages three and upwards. Handset clips in and makes up the roof of the car, for safe keeping.

1JF-378 **Vouchers 750**

Bee-Bot Jungle Cards

Send Bee-Bot on a wild adventure with these new Jungle Cards. Children can use the cards to develop their understanding of the creatures which live in different parts of the world, their habitats and lifecycles. 15 cards, size: 15cm x 15cm.

1JF-377 **Vouchers 250**

Bee-Bot Pirate Cards

Have some swashbucklin' fun with these Bee-Bot pirate cards. Create your own pirate adventure whilst developing control skills. 15 cards, 15cm x 15cm.

1JK-370 **Vouchers 250**

Talking Bee-Bot

Bring Bee-Bot to life with our innovative Electomat, make him talk, sing or trigger moving models as he makes his way around the mat. Place the plastic tiles together to fit any of your Bee-Bot mats, you can then place sensors under any of the 15cm x 15cm squares on your Bee-Bot mat. Sensors are programmed using the control box supplied. Programme each sensor with your own voice recordings, sounds or attach moving models with motors, buzzers and lights. As Bee-Bot goes around the mat he will trigger the sensors as he moves over them. Starter kit contains: four tiles, four sensors, one control box, two battery doors.

1JF-373 **Vouchers 1,180**

Eggspert

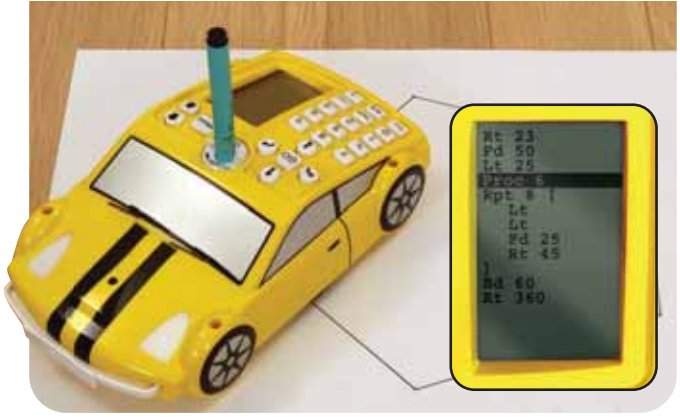
This clever, motivating answer system allows you to practise all areas of the curriculum by asking and answering questions or completing activities. The two modes of play, Jeopardy and Wheel of Fortune allow for fastest response or random selection of players to answer questions.

1JF-381 **Vouchers 1,300**

Bee-Bot Shape and Colour Cards

Help children to develop recognition of shape, colour and size with these great Bee-Bot cards. Varied shapes (including some 3D) and colours mean children can develop their maths skills along with their control skills. 15 cards, size: 15cm x 15cm.

1JF-374 **Vouchers 250**



Pro-Bot

After using Bee-Bot with Foundation Stage and Key Stage 1 children, Pro-Bot is a floor robot which could be used for teaching more advanced control techniques.

- Bright attractive car design
- Robust and durable for everyday use
- Can operate independently or alongside your PC with software
- Can be used simply by programming arrows or accepts more complex commands
- Routes can be drawn using our simple pen mechanism and a felt tip pen
- Fully functional headlights using light sensors
- Voice activated functions/bumper sensors
- Four locator points on the body allows the use of Primary K'Nex

1JF-331 **Single** **Vouchers 3,900**
1JF-338 **Pack of 6** **Vouchers 21,450**

Pro-Bot USB Cable

The Pro-Bot has a specifically designed USB cable, if you need to operate more than one with your computer at once, these are a must-have. A cable is enclosed with Probotix. Pack of 5.

1JF-339 **Vouchers 1,500**

Probotix Software

Allow children to take complete control of their programming with this on-screen logo programming software. Suitable for Key Stage 1/Key Stage 2.

- Easy to use programming with directional buttons or logo language
- Helps to deliver the ICT QCA Unit 4E.
- Pen up/down feature
- Modify and improve routes on screen when programmed
- Upload and download your sequences to our floor robot
- Change the background image, or import your own

1JF-334 **Single User** **Vouchers 1,120**
1JF-333 **5 User** **Vouchers 2,230**
1JK-016 **10 User** **Vouchers 2,970**
1JF-332 **Site Licence** **Vouchers 3,340**

Pro-Bot Starter Pack

This pack includes:

- One Pro-Bot
- One re-chargeable battery unit with 4 AA batteries
- One single user Probotix software licence
- One USB cable for Pro-Bot
- One Rally Track Mat

Investigate different angles whilst you race around your rally track. Use your Probotix software to simultaneously set groups off producing different procedures.

1JF-335 **Vouchers 7,200**

Pro-Bot Class Bundle Pack

The perfect package for those using Pro-Bot with the whole class. No one will be disappointed with this array of equipment!

- Six Pro-Bots
- Six USB cables
- 10 user Probotix software licence
- Three activity mats; Rally Mat, Amusement Park Mat and UK Map Mat
- One Transparent Grid
- Three rechargeable battery units with 12 AA batteries

1JF-336 **Vouchers 23,450**

Pro-Bot Technology Pack

Extend your study of QCA Unit 6C Design & Technology. This stimulating set of materials will encourage children's investigations of fairgrounds and extend their work with Pro-Bot to Unit 4E ICT as they take programming to model effects on screen. This pack includes:

- One Amusement Park Mat
- One single user Probotix
- Software licence
- One USB cable

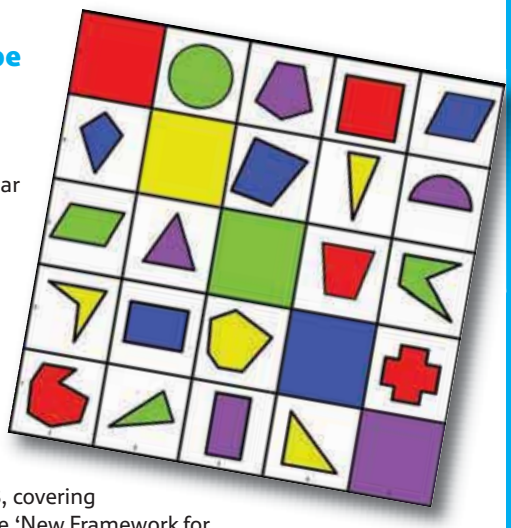
1JF-337 **Vouchers 1,360**

Pro-Bot Amusement Park Mat

Experience the thrills and spills all the way with this varied and exciting Theme Park. This mat is designed to make children think more creatively about the angles at which Pro-Bot would be travelling along each ride. This will link excellently to and extend your Design Technology Unit 6C Fairgrounds. Size 125cm x 125cm.

1JF-346 **Vouchers 880**

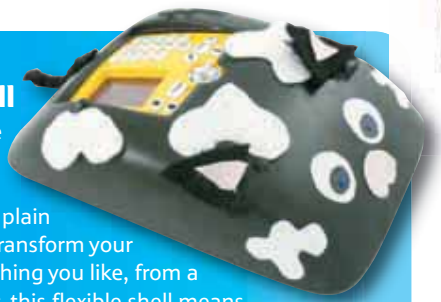
Pro-Bot Shape Mat



Explore the properties of both regular and irregular shapes with this specially designed mat for Key Stage 2. An excellent way to combine ICT and mathematics. Teacher's notes complete with ideas from reception to year 8, covering objectives from the 'New Framework for Teaching Mathematics'. Size 125cm x 125cm.

1JF-342 **Vouchers 930**

Pro-Bot Shell



Many of you have asked to transform Pro-Bot. Use this plain Pro-Bot shell to transform your Pro-Bot into anything you like, from a rocket to a spider, this flexible shell means you can create many different scenarios.

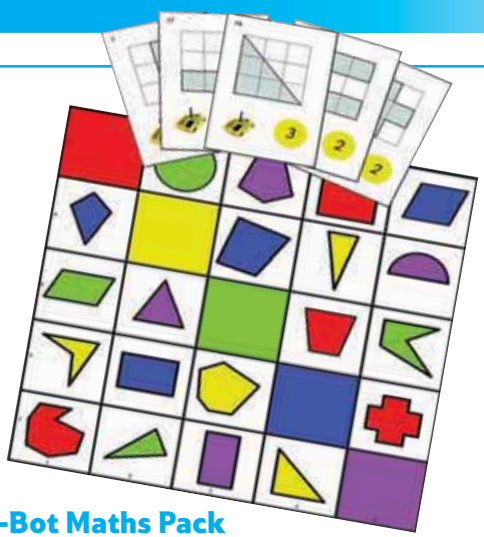
1JF-340 **Vouchers 300**

Pro-Bot Shape Property Cards

A great resource for combining ICT and Numeracy. Children will enjoy tackling differentiated tasks from the workcards and worksheets provided. Pack comprises:

- A set of 24 huge A2 cards
- Shape instructions
- Teacher's notes
- Child worksheets

1JF-344 **Vouchers 930**



Pro-Bot Maths Pack

Investigate shape through our floor mat and workcards that cover both regular and irregular shapes. Pack includes: one Shape Mat, 24 Shape Property cards plus activity sheets and notes. Giant A2 cards.

1JF-345 Vouchers 1,360

Pro-Bot Plain Grid

This is a really versatile approach to control Pro-Bot in your class room. We have created a new type of material specifically for use with wipe clean / dry pens to ensure a clean wipe every time. Ideal for using your pen in Pro-Bot to create geometric shapes. Size 100cm x 100cm

1JF-341 **Vouchers 750**

Log-Box

- All the sensors are built-in (temperature, light and sound) and clearly labelled to avoid confusion. You don't even need to connect it to a computer – just log in and go!
- Specifically designed for smaller hands
- Robust design that can withstand outdoor fieldwork.
- A neck strap to free-up hands when working outside
- Recordings are easy to view and read with our software (included) or on the built in screen
- Choose how data is displayed in graph, bar chart, chart or table formats
- Includes a plug in temperature probe, but is also compatible with other external sensors
- Information can be downloaded via USB cable included.

1JF-349 **Single** **Vouchers 3,280**
1JF-355 **Pack of 6** **Vouchers 18,030**

Log-Box Light Sensor

This sensor allows you to measure light in a confined space or away from the actual Log-Box. You can compare and contrast light from two alternative sources using this together with the built-in light sensor inside Log-Box.

1JF-347 **Vouchers 870**

Log-Box Sound Sensor

Use in addition to the built-in Log-Box sound sensor or choose to override it. This is specially calibrated for use with Log-Box.

1JF-348 **Vouchers 1,210**

Log-Box Pulse Sensor

Range 40 to 200bpm. This sensor is used to measure heart rate during exercise.

1JF-350 **Vouchers 2,440**

Datalogging Activities Book

An excellent reference resource filled with over 25 ready-to-go ideas for using your datalogger in the context of the school setting. Complete with a comprehensive overview of all cross-curricular links.

1JF-352 **Vouchers 500**

Heart Rate Investigation Kit

You can easily incorporate this kit within P.E. and Science to measure you heart rate before, during and after exercise. The pack includes a pulse sensor and a stopwatch. Accompanied by five lesson ideas.

This external temperature probe enables you to carry out compare and contrast investigations. Use with your Log-Box to do experiements using two temperature probes at once.

1JF-351 **Vouchers 850**

TESCO IRELAND for Schools & Clubs FREE Spinning Jo Jo's & Bubble Mixture

Egg-Box

A simple to use, away from the computer control box to operate your own and ready made models. There are four pairs of outputs, and a record button which remembers up to 64 steps to operate lights, motors, buzzers or LEDs. Two holes in Egg-Box means it can be mounted on dowel or K'Nex rods within your models.

1JF-357	**Single**	**Vouchers 1,200**
1JF-362	**Pack of 4**	**Vouchers 4,200**
1JF-363	**Pack of 6**	**Vouchers 6,600**

Egg-Box Leads Set

Simple to use leads to connect wires from your ready made models to your Egg-Box. Pack of six colour coded leads to accompany Egg-Box. (One red, one black connector per colour coded pair.) Length 40cm.

1JF-356 **Vouchers 300**

Egg-Box Power Bank

Egg Box Power Bank is a kit consisting of two high power rechargable 9v batteries and charger.

- Provides a much higher current than standard batteries
- Runs motors and powerful lights without using plug-in power supply

1JF-361 **Vouchers 780**

Easi-Log Temperature

Datalogging made Easi!

Easi-Log is a simple and effective way to introduce datalogging into Key Stage 1 and ideal for using in specific temperature experiments in Key Stage 2.

The Easi-Log is shaped like a digital thermometer with a small LCD screen on the front. Children can dip the probe into liquids, wrap inside different materials or use to test the varying temperatures in different areas. The reading is displayed on the LCD screen and with the simple press of a button it begins recording data. The data is saved directly into the device itself which then plug straight into your computer via the attached USB. Data can be viewed as an excel spreadsheet and then imported into other applications should you wish.

1JK-142 **Vouchers 1,300**

Egg-Box Starter Kit

Get a head start with this control pack. Ideal for away from the computer control box activities in your classroom.

This pack includes:

- Egg-Box
- Mains power adapter
- Control traffic lights
- Spring connectors
- Four pairs of 20cm leads

We hope these ready made traffic lights inspire you to use the connectors and make your own models.

1JF-360 **Vouchers 2,150**
